Mrs. Hyatt got home first, about 4:30 clock, and rang in a hurry call for the doctor, who gave up the weather problem sent out building of the noncommittal "unsettled" variety, and made tracks for the nearest street car.

Lansing, Mich., Dec. 3.—General W. L. White of Grand Rapids, ex-Quartermaster General of the Michigan National Guard, to-day pleaded guilty to the charge of complicity in the State military clothing frauds and was sentenced by Judge West to ten years in prison.

After a private consultation with White, Judge West took the bench and said that no showing had been made to mitigate White's offense. BIG INCREASE IN

Gain of Twenty-Five Per Cent Over Last Year Shown by Collections -Managers Are Jubilant,

The glass box of the Hospital Saturday ficials of the St. Louis Transit Company and Sunday Association from the Columbi-have been revived, and in spite of repeated an Club was turned in yesterday. It contained \$83. This, with \$10 turned in latwere industriously circulated yesterday. He news that representatives of Brown Bros. & Co., the New York banacers, who engineered the deal for the consolidation of the various lines absorbed by the St. Louis Transit Company, are coming to St. Louis to-morrow to attend a meeting of the Board of Dicectors of the company has given an addied interest to these stories, and it is said that some radical changes will be made.

Transit Company stock sold yesterday at \$17 a share, the lowest price on record, and the St. Louis and Subarban Railway, the company's and substrain Railways preferred sold at \$2 a share, which was also the lowest price on record. from the churches will begin to come in from now on.

A few churches were unable to take up the collection on Sunday and will make the Hospital Association the order of business next Sunday Committee Chairman E. H. Semple finds that in a great majority of cases the collection was taken up on the day designated. The work of the association and the distribution of funds will be greatly facilitated if the treasurers of churches will make their returns to Waiker Hill as early as possible.

Elias Michael, chairman of the Tradez Committee, was very netive yesterday endeavoring to expedite the completion of returns from the Tradez committees. In past years returns from these committees have often dragged over a mouth, but he is anxious to get them in within a few days. He was assisted yesterialy by Mr. Josse W. Elseman, who devoted nearly the entire day to the work

It was expected that by Wednesday or Thursday very satisfactory totals would be realized. The largest collection so far from the Trades is \$80, from the Wholesale Boots and Shoes. The Coffee, Tea and Spice list runs to \$90. The chairmen of a number of other committees reported amounts in excess of collections last year, but said they were not yet through with their work and would not be satisfied with existing totals. Everything points to the gain of about 5 per cent which was made by the ladies on Saturday being maintained throughout, in which case the total proceeds from all sources will be between \$18,000 and \$20,000. The best on record in previous year was \$15,000. President D. R. Francis and other members of the Excentive Committee were very jubilant yesterday over the excellent start mad in the work and in the assurance that they will be able to distribute a larger percentage of actual expense to qualified hospitals than has been possible in any previous year. percentage of actual expense to qualified hospitals than has been possible in any pre-

Re 136,000,000.

Correspondence of the Associated Press.

St. Petersburg, Nov. 19.—The population of Russia was estimated at about 5,000,000 in 1861, the year of the emancipation of the serfs. It is now calculated to be over 126,000,000, according to a statement just published by the Ministry of Finance. This estimate is obtained by adding the calculated annual excess of births over firsting, which is certainly 2,000,000 to the total of 120,000,000 given by the census of January 18, 1857, which was 125,200,000 without the Grand Duchy of Finland or 125,000,000 including Finland. The Slavic population is 21 per cent of the whale, Russians alone numbering 86,000,000, or 65 per cent, and the Poles 2000,000 or 7 per cent. The total Finnish population is over 6,000,000.
